

EBNERFAB

EBNER FURNACES, INC.

Your partner for superior fabrications

ASME Certified

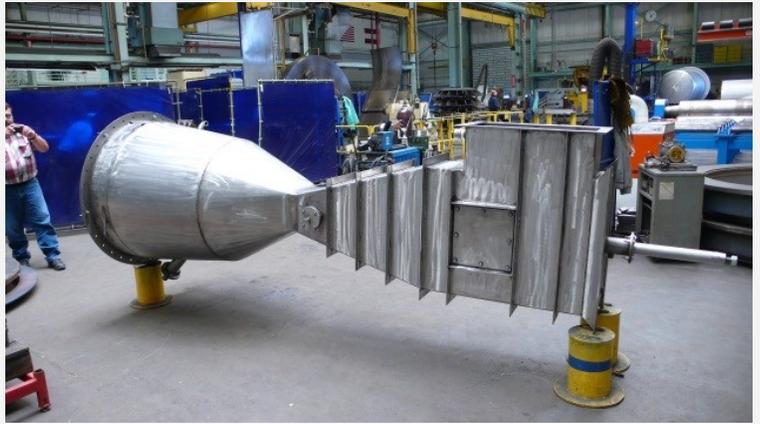

EBNERFAB is a full service ASME code job shop specializing in medium to heavy steel fabrications, annealing components, ASME pressure vessels, plate rolling, heat treat components, storage tanks, and high nickel alloy fabrications.

EBNERFAB operates a modern and efficient manufacturing facility employing lean manufacturing techniques, advanced technologies and automatic welding systems. Our manufacturing and project staff have extensive experience working with fabrications made of carbon and stainless steel from a few hundred pounds to over 60 tons.

EBNERFAB is a business group operating within EBNER Furnaces, Inc., which was established and has operated in Wadsworth, Ohio since 1987. EBNER Furnaces is a wholly owned subsidiary of EBNER Industrieofenbau located in Linz, Austria and also has a sister company in Taicang China. Worldwide, the EBNER companies employ approximately 1,000 people.
